

Single seat cowl

LED position light

Not only is it very tasteful but because it is 3 times more powerful than normal LED position bulbs on the market it also increases your safety at the night. (a YAMAHA original)

# YZF R15 Accessories parts

racing stand

Developed exclusively for the R15 so it is a perfect fit. It is recommended that it be used by all R15 owners.

rear arm graphic (emblem)

The YAMALUBE seal sticker creates a fashionable appearance.

We advise all customers to buy the YZR-R15 accessories from authorized YAMAHA dealers only.

### Single seat cowl

After attaching this your bike is easily converted into a single rider R15 thereby creating the racer feeling. It can also just as easily be removed to accommodate a pillion passenger.

### Tank protector

The tougher material of this protector results in it being longer lasting than the other resin material protectors on the market. Developed exclusively for the R15. It's stylish shape is obvious to everyone.

### LED flasher set

### Swing arm pivot cap

Aluminium item with a eye-catching attractive design.

### front wheel shaft remover flange

Aluminium item used in racing to quickly and easily change tires and also protects the wheel shaft.

### LED flasher set

A popular R1 accessory part in Japan with easy to replace bulb & lens. Authorized under the E-mark regulations of EU. One light contains 18 pieces of high illumination LED. Meaning in total it contains 72 pieces of LED.

### Air bulb cap

The original seal design on top of the air-bulb with the YAMAHA logo matches your ownership desire.

### number plate bolt

A jeweled bolt which dramatically enhances the look around the number plate.

### rim stripe tape

Rim tape creates a stylish appearance, fits comfortably around the shape of the rim and the red rim tape looks good on the black wheel. It is even more effective with the logo on the tape.

### Billet clutch / brake lever

Aluminium item differentiated from other parts on the market through it's original seal design which is easily recognized by customers.

### bar-end cap

Aluminium item for protecting the handle bar ends with a distinctive appeal.

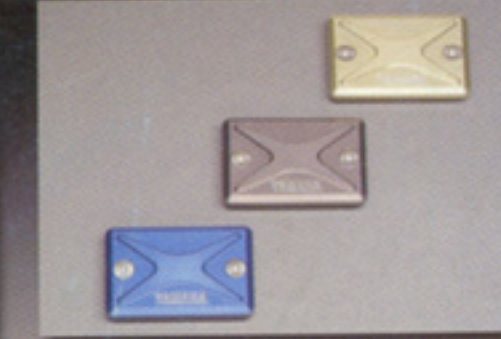

### Muffler-end cap

Aluminium item with an attractive look gained through a consideration for top design.

### Steering Center Bolt Cap

Aluminium item which enhances the look around the handle's center bolt.

### Front brake master cylinder cap

Aluminium item which is not only attractive but is also appealingly different.

### E/G oil level gauge

Aluminium item for measuring the oil level, as well as being distinctive and stylish. This must be removable for safety reasons.
